

REMARKS

The examiner stated in the office action dated April 20, 2005 that the reply filed on February 3, 2005 is not fully responsive to the prior office action because applicant had not responded to the rejection 35 USC § 112, ¶2 with regard to the use of "oil producing organism."

In the February 2005 response, applicants had amended claim 9 so that "oil producing" was deleted from "oil producing organism." Applicants herein amend claim 9 to clarify that "oil producing organism" means organisms which are capable of synthesizing fatty acids. The support for this amendment is found in the specification on page 19, last paragraph.

In view of the present submission applicants believe the office actions now properly have been responded to.
